Gentlemen,

As a resident of Upper Nyack in Lower Rockland County I am urgently requesting that you scrap any new plans to change the routing of the Millennium Pipeline to pass through any part of Lower Rockland County. The idea that this pipeline would go along the Palisades Parkway, bulldozing through Tallman Mountain, State Park and the Piermont Marsh, or alternately through Hook Mountain State Park and Nyack Beach State Park is environmentally disastrous, and will ruin two of the last beautiful waterside state parks in Rockland County.

This natural gas pipeline only benefits the residents of Westchester County. Why should Rockland have to bear the burden of this ill-conceived project? Announcing the proposed change in route just before Thanksgiving was a cowardly move, at best. Giving the residents of Rockland only until January 8th to respond is a deliberate ploy to bulldoze this plan through the back yard of several of our most beautiful river towns.

We cannot and will not accept this alternative.
